

ACCPAC

ACCPAC Advantage Series™

best  
software

ACCPAC Advantage Series™ offers the freedom of choice, seamless integration, high performance and reliability that forward-thinking companies rely on to increase profitability and gain competitive advantage.

### World-Class Architecture

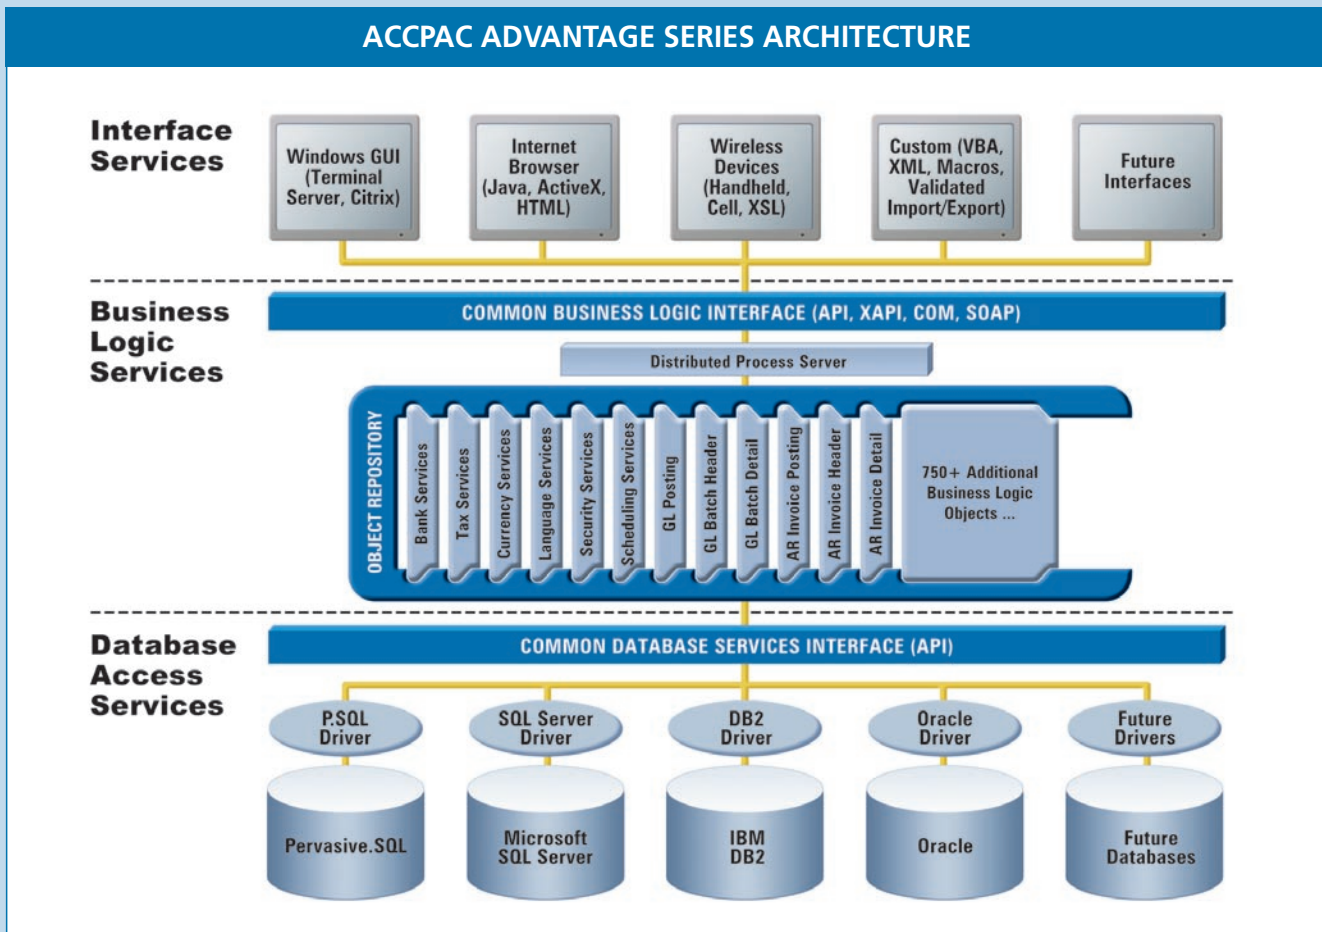

ACCPAC Advantage Series is an advanced accounting application built on a world-class, object-oriented and multitiered architecture. Designed for companies of all sizes, Advantage Series can be deployed both as a Web-based and desktop application, and is the foundation for an integrated set of end-to-end business management applications.

You choose the solutions that work best for you: the applications, database and deployment options, the user interface and languages, the network environment or operating system, the add-on software developed by ACCPAC or independent industry experts, and the customized features that help you operate more efficiently and profitably.

### Ultimate Scalability

From single-user remote locations to large corporate environments with demanding accounting needs, no other product scales like ACCPAC Advantage Series. With Advantage Series, you can seamlessly upgrade from one edition to the next as your business requirements expand. When you upgrade, your data and custom reports easily move with you.

All ACCPAC Advantage Series editions have an identical user interface, making it easy to adapt to the next edition without costly staff retraining or data conversion. Advantage Series also enables data processing to be distributed across multiple servers, so as your number of users increases, multiple servers can share the processing load.

ACCPAC Advantage Series is built upon industry-leading architecture that stands the test of time – quickly adapting to new technologies and easily integrating external applications for effective information exchange.

## Completely Web-Based

ACCPAC has changed the rules for mid-market business management solutions by offering complete access to your accounting system through a standard Web browser. No longer limited by location, now you can access ACCPAC Advantage Series anywhere, anytime through our easy-to-use, Web-based interface.

## Easy to Use and Customize

ACCPAC Advantage Series is easy to set up and use, with intuitive wizards and a familiar interface that makes configuration and navigation a breeze. Embedded Microsoft® Visual Basic® for Applications (VBA) lets you easily expand, customize and integrate your Advantage Series application. From simple desktop personalization to user-specific customization, Advantage Series adapts to the way you do business.

## Total Investment Protection

ACCPAC Advantage Series is a complete system designed to deliver significant competitive advantages to your business today – with the investment protection you need to upgrade quickly and easily from one edition to the next as your business requirements expand. Our value-added protection plan is offered across all of our product lines.

*"ACCPAC takes a sovereign position in mid-market solutions for the breadth of its integration. Architected for the Web, the object-oriented technological infrastructure has served the company well in supporting a total back-office to front-office integration of the complete product line."*

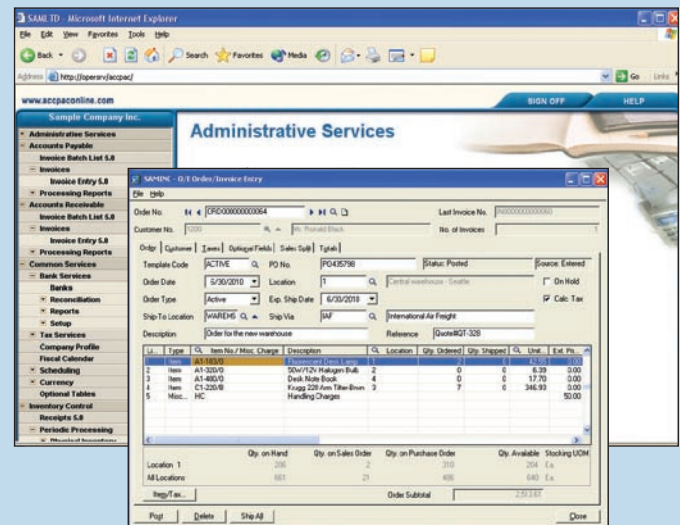

Dr. Katherine Jones  
Aberdeen Group

## Designed for Global Business

In today's global marketplace, competition extends well beyond a country's borders. ACCPAC Advantage Series supports multiple languages and is designed to satisfy the most demanding international requirements. Multicurrency with support for value-added taxes and GST, as well as compliance with local accounting requirements, gives you a complete and comprehensive global application allowing you to compete worldwide.

## Hundreds of Industry-Specific Solutions

ACCPAC has an extensive network of more than 400 Development Partners who develop and market a wide range of industry-specific applications that enhance and extend ACCPAC Advantage Series for specific industries and special business needs. Whatever your industry, ACCPAC provides cost-effective, reliable business management applications that fit your needs.

ACCPAC Advantage Series Web Desktop and Order Entry screens allow secure access to business functions – anytime, anywhere.

\*For up-to-date information about supported platform versions and certifications, please visit [www.accpac.com/products/system\\_requirements.asp](http://www.accpac.com/products/system_requirements.asp)

All three editions of ACCPAC Advantage Series are built from the same Web-based, multitiered technology. Choose the one that meets your business requirements.

## Enterprise Edition

ACCPAC Advantage Series Enterprise Edition is a comprehensive, Web-based business management solution with powerful financial and operations management, e-business and customization capabilities. Built on a solid, multitiered, open architecture, Enterprise Edition supports unlimited users and offers you an easy upgrade path from other ACCPAC Advantage Series editions.

### Customer Profile

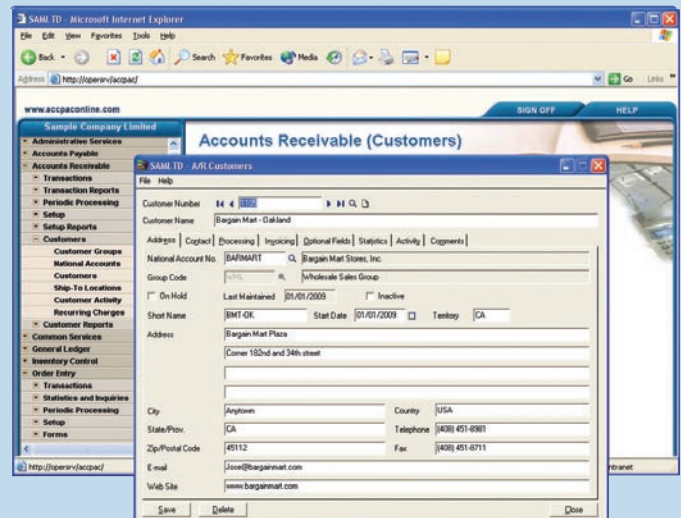

Enterprise Edition is designed for medium to large-size businesses, typically those with multiple locations and a global marketplace. With powerful analysis, reporting and customization options, Enterprise Edition is ideal for companies requiring a highly scalable system that supports global business infrastructures and unlimited users.

### Modules

System Manager (including ACCPAC iConnect Server®, Bank Reconciliation and Microsoft VBA), General Ledger, Accounts Receivable, Accounts Payable, Inventory Control, Order Entry, Purchase Orders, U.S. Payroll, Canadian Payroll, G/L Security, G/L Consolidations, Intercompany Transactions, Process Server, National Accounts Management, Transaction Analysis and Optional Field Creator, Project and Job Costing, Multicurrency and Additional Languages.

## Corporate Edition

ACCPAC Advantage Series Corporate Edition is a completely Web-based, affordable and expandable business management solution designed for medium-size accounting environments. It offers powerful analysis and reporting tools and a complete accounting feature set, with operations management capabilities. You'll find it's easy to upgrade as your business needs expand because it is built on the same superior architecture as the Enterprise Edition.

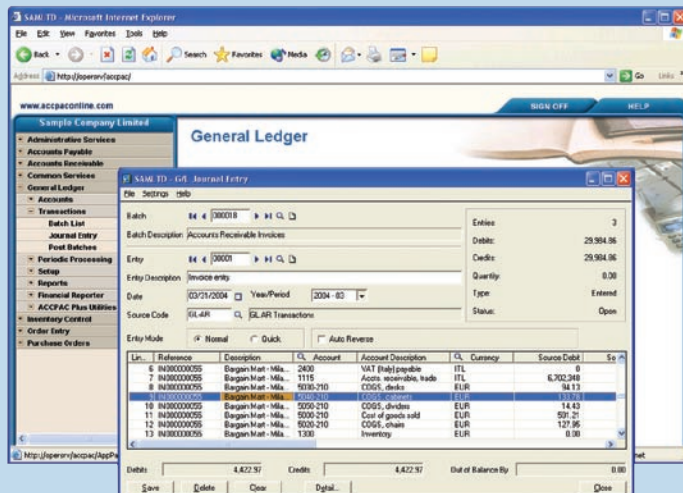

Take advantage of powerful AR features to make the most of your customer and contact information.

### Customer Profile

Corporate Edition is right for businesses that require a fully integrated, feature-rich financial management application that supports as many as ten concurrent users. These customers demand powerful analysis and reporting tools and a complete accounting feature set with operations management capabilities.

### Modules

System Manager (including ACCPAC iConnect Server, Bank Reconciliation and Microsoft VBA), General Ledger, Accounts Receivable, Accounts Payable, Inventory Control, Order Entry, Purchase Orders, U.S. Payroll, Canadian Payroll, G/L Security, G/L Consolidations, Intercompany Transactions, Process Server, National Accounts Management, Transaction Analysis and Optional Field Creator, Project and Job Costing, Multicurrency and Additional Languages.

ACCPAC Advantage Series delivers sophisticated multicurrency and global accounting features.

## Small Business Edition

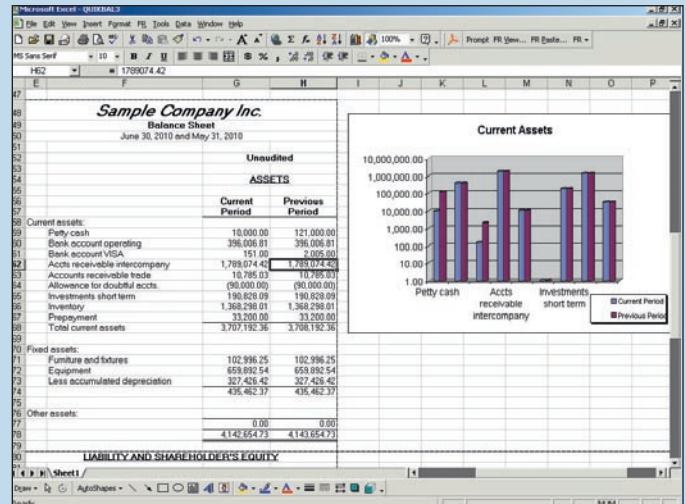

ACCPAC Advantage Series Small Business Edition is a completely Web-based application specifically designed for the growing company that requires a complete accounting and operations solution. This scalable solution provides you with the financial management power you need – at a price you can afford. Like all editions, Small Business Edition is built from the same open, multitiered technology, allowing you to efficiently increase the functionality and capabilities of your software as your business grows.

## Customer Profile

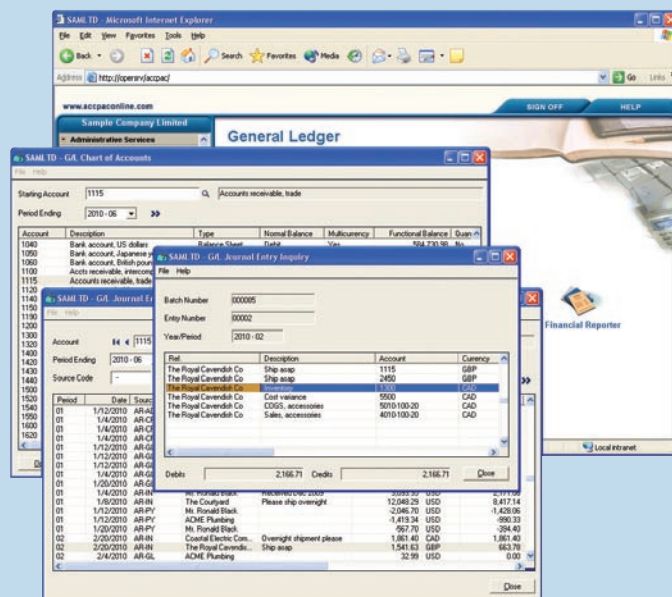

Small Business Edition is designed for customers with no more than five concurrent users and provides powerful accounting and operations management tools, extensive reporting capabilities, e-business readiness and a secure growth path. Small Business Edition ensures that your accounting solution evolves with your business.

## Modules

System Manager (including ACCPAC iConnect Server, Bank Reconciliation and Microsoft VBA), General Ledger, Accounts Receivable, Accounts Payable, Inventory Control, Order Entry, Purchase Orders, U.S. Payroll, Canadian Payroll, GL Consolidations, Intercompany Transactions, Process Server, National Accounts Management, Optional Fields and Validation Tables, Project and Job Costing, Multicurrency and Additional Languages.

Powerful and flexible financial reporting is fully integrated with Microsoft Excel.

Cross-module capabilities let you drill down to the original transaction.

"ACCPAC Advantage Series has fulfilled all of our objectives in terms of financial reporting and our ever-expanding chart of accounts. With ACCPAC business analysis tools, we are more confident than ever in our ability to make the best possible decisions for our company. With such a seamless conversion of our data and significant gains in productivity and efficiency, it is clear that ACCPAC was the right choice for NAA."

Steve Harfst, COO  
North America Airlines

ACCPAC Advantage Series is the foundation for an integrated set of end-to-end business management applications designed to grow with your business.

## Run Your Business Your Way

ACCPAC end-to-end business management applications integrate out of the box and can be implemented all at once or one solution at a time to fit your particular business needs.

From Web store to warehouse, pre-sales prospecting to post-sales customer care, ACCPAC is uniquely positioned to deliver the cost-effective, reliable business management applications that address your market-specific requirements. In addition, ACCPAC enjoys the support of dedicated third-party developers around the world who have created vertical tools that enhance and extend the capabilities and functionalities of your ACCPAC Advantage Series system.

### ACCPAC CRM

ACCPAC CRM™ is a comprehensive, award-winning CRM system that provides enterprise-wide access to vital customer, partner and prospect information – anytime, anywhere. ACCPAC CRM helps you better manage your business by integrating field sales, internal sales, customer care and marketing information and is available in-house or as a hosted application at [www.ACCPACcrm.com](http://www.ACCPACcrm.com)™.

### ACCPAC HR Series

ACCPAC HR Series™ helps you accurately and efficiently manage your human resources and employee benefits responsibilities. It keeps your staff up to date with easily accessible information that is calculated and reported in real time and available via the company intranet.

### ACCPAC Warehouse Management System

ACCPAC Warehouse Management System™ is designed to automate your inventory-handling processes and help you better manage your supply chain. It works as part of a complete operational system by interfacing with radio-frequency hardware, barcoding technology, shipping systems and other warehouse automation equipment, providing a significantly improved allocation of resources within the warehouse.

### ACCPAC Exchange

ACCPAC Exchange™ is a comprehensive electronic data interchange (EDI) solution that complies with traditional EDI technologies and integrates back-office automated transaction processing, Internet trading and the global EDI network. It makes exchanging data with trading partners easy, no matter what EDI system or value added network (VAN) they are using.

### ACCPAC eTransact

ACCPAC eTransact® is a quick and affordable way to create a professional Web store that fully integrates with your back-office ACCPAC Advantage Series accounting system. The powerful software provides automated features and advanced capabilities that makes it easy for customers to serve themselves by shopping and placing orders on the Web.

### ACCPAC ePOS

ACCPAC ePOS™ is a comprehensive point-of-sale system for fast-paced, high-volume, multi-site retail operations. It features an intuitive Web-based interface and provides a complete view of your customer activities and inventory that scales to meet even the most complex retail demands.

### ACCPAC Insight

ACCPAC Insight™ is an enterprise-wide reporting, budgeting and consolidations application that is ideal for employees in remote offices and disparate departments who need to manage, distribute and collaborate from a single, unified source. It allows you to quickly capture and integrate information into meaningful reports and securely distribute them across your entire enterprise on demand.

### ACCPAC CFO

ACCPAC CFO™ is a financial diagnostic tool that helps you better understand the implications of specific business decisions, identify the most effective use of financial resources and measure the profitability of virtually every business goal.

### ACCPAC Hosted Services

ACCPAC Online™ offers small and medium-sized businesses online access to the power of ACCPAC end-to-end business management applications. ACCPAC hosted services address every aspect of your company's business management needs so you can share critical data to make more informed business decisions.
