Seattle, WA -- (November 23, 2009) – Forepoint LLC (www.forepointusa.com) announced today that it has been chosen as a 2009 VAR Star, a group of 100 organizations that are being honored for their accomplishments in the mid-market financial software sector.

“This award is made to honor organizations for factors such as quality performance and leadership in their arena. It is made without regard to the volume of annual sales made by these businesses, although their ability to achieve notable growth is considered,” says Insights executive editor Bob Scott.

This is the first year that the award has been made by Bob Scott’s Insights, a publication of the Progressive Media Group. However, Scott has been providing information, analysis and humor to value-added resellers and suppliers of mid-market accounting software since 1991 and has been involved in the awarding of previous industry honors.

“We are proud to be recognized as a member of this elite group of Value Added Resellers (VAR’s),” said Kevin Cumley, Forepoint President. “With thousands of firms serving our industry, it is a great honor to be among the few selected.”
